ADDITIONAL INFORMATION SUPPORTING NJD (e.g., paragraph 1 – site conditions; paragraphs 2-3 – rationale used to determine NJD, including information reviewed to assess potential navigation or interstate commerce connections; and paragraph 4 – site information on waters of the U.S. occurring onsite): The 1.5 acre single temporary wetland is located in an 8 acre parcel of property proposed for development, and consists of hay meadow. It has no surface hydrological connection to waters of the US, is not navigable in itself, and has no other valid ICC; it is considered an isolated intrastate wetland (SWANCC).
